Our approach

FACT Liverpool believes in enriching lives and shaping the future through film, art and creative technology. Equality, Equity, Diversity and Inclusion (EEDI) is at the heart of everything we do at FACT.

We recognise that:

Equality is providing accessible resources, experiences and opportunities for everyone

Equity is recognising and removing barriers based on an individual's needs

Diversity is creating space for diverse voices and reflecting different cultures and lived experiences

Inclusion is creating opportunities for all people to work at, engage with and experience FACT's arts and cultural offer

Our values

Friendly → We are warm and welcoming, a social space for people, conversations and interaction

Curious → We encourage people to be curious, to question, experience new things and to find out more about the world around them

Transformative → We champion radical visions, diverse voices and are open to new ideas

Responsive → We are responsive to others and their communities, recognising our power to create and share positive change

Our commitments

FACT commits to ensuring our workplace, arts centre, programme and platforms are safe, accessible and representative of the communities which we work with. We are a disability equity charity - so, we'll build a culture that's accessible and inclusive first. And we will listen, learn and keep improving to increase opportunities within the workplace and through our arts and cultural offer.

- Promote equality and diversity within the workplace, and speak out against disrespectful or discriminatory behaviours

Language

The language we use is essential in helping to create a safe and inclusive environment where everyone feels welcome and included. We agree on, and regularly review, a shared language that is inclusive, reduces bias, recognises barriers and demonstrates an understanding of how different lived experiences lead to different ways of experiencing the world.

- We will **ask first** to check how and when people want to use identifying language
- We will use gender-neutral language and nouns
- We will use inclusive and preferred pronouns when known
- We will refer to individuals and groups by **their preferred** racial, national or ethnic identity
- We will respect intersectionality and use terms that reflect the diversity of lived experiences
- We will avoid the use of homogenising terms
